

## **CONQUEST 2009 in Nuremberg: Call for Papers out now!**

The International Software Quality Institute organizes the 12th international Conference on Quality Engineering in Software Technology in Nuremberg from 16 - 18 September 2009.

The CONQUEST gives attention to topics such as

- Quality Assurance and Management
- Process and Product Quality
- Process Optimization and Improvement
- Education, Training and Certification
- Quality Engineering Related Standardization
- Systematic Software and System Development
- Secure and Safe Software-Based Systems
- Model Driven Engineering
- Requirements Engineering
- Verification and Validation
- Testing of Software-Based Systems
- Metrics and Measurements of System Quality and of Development Processes
- Analytical Models of Software Engineering
- Project Management

The team of iSQI is happy to receive interesting and informative papers, which can be submitted via the [conference management system](#). Please find submission details and important dates in the [call for papers](#).

If you are interested in becoming a participant, sponsor or exhibitor at CONQUEST 2009, please [preregister](#) at our conference website. We will keep you informed with the latest conference news.

If you have questions, please contact Ms Tanja Brütting ([tanja.bruetting@isqi.org](mailto:tanja.bruetting@isqi.org)).
